Jonesy's Cow

Acoustic Duo

Jonesy's Cow originated in March 2002 when lead singer/rhythm guitarist, Al Colman and lead guitarist, Jean-Paul Burette met in the Perth Hills town of Kalamunda. After collaborating and performing locally as a duo they joined up with drummer, John Perella and, together with 'guest' musicians, they put together their first EP (Contagious), ran a local 'open Mic Night' and performed at many venues in the Perth area. The band's blend of blues/folk/rock originals and covers has seen them play at such places as The Last Drop Tavern, Forrestfield Tavern, BushShack Brewery, Hainault Winery and Araluen Blues Festival 2004-2006. At present Jonesy's Cow perform as a duo or trio with their original line-up while recording a new album.
